With Abra-Kid-Abra Assemblies You Get:

- Engaged students and long-remembered content. After all, it's illustrated by magic!
- Free study guide to extend learning into the classroom
- Free take-home trick enabling students to shine!

"The kids and teachers loved your reading magic program! You were a true professional from before the program began until the rollicking end! You energized and engaged the students, injected just the right amount of references to Reading Week, and best of all sent droves of kids to the Library seeking books!"

Hene Spevak, Ellisville Elementary

"I really enjoyed the mathemagic presentation. Our goal was to get students interested in math and we did. We had 140 parents and students in attendance and immediate feedback was very positive."

Val Todaro, Instructional Specialist, Lusher Elementary

"The kids absolutely loved your Heroes Not Bullies performance. It was funny, witty, personable, entertaining but at the same time had a very powerful message. The teachers have already requested your return next year."

Mary Ellen Patterson, Warren Park School
