

Ideas to Help Make Frosty's Birthday BIGGER

1. **Hats.** Have the children make party hats. This will embellish the event, and give the teachers a fun project.
2. **Decorate.** Decorate the center—especially the room for the show—to reflect a birthday party.
3. **Coloring Sheet.** Reproduce the coloring sheet and have each child color their own. Put these up in the room for added decoration.
4. **Posters.** Reproduce the posters and place them all over the center.
5. **Invitations.** Fill in the invitations, copy them (note they are two to a page), and send them home with the kids.
6. **Cake.** Have the children make cupcakes or a birthday cake. This can serve as a snack, or be offered to parents. Place marshmallows on the cakes, and decorate like a snowman!
7. **Invite Parents.** Invite parents to attend the party. Let them see how much fun their kids are having, and how their activity money is being spent.
8. **Frosty.** Make sure the individual you select to wear the Frosty costume has lots of personality. This portion of the event is huge for the children.

Frosty's Coming!
