# REINDEER PUZZLE

There are 9 pens with reindeer: 3 on each of 4 sides (top, bottom, left, right), and 1 pen in the middle. Note that 6 reindeer are on each of the 3 sides, and 4 are in the middle.

Challenge: Can you rearrange the reindeer so that no reindeer are in the middle pen, and there are still 6 reindeer on each of the 4 sides? You must use all the reindeer.
